

NEW MEMBER ORIENTATION

INTRODUCTION

Welcome to the Lorain Rifle & Pistol Club and our outdoor range facility. Formed in 1928, the Club has resided at this current location since 1944.

We are pleased that you wish to join this Club and we hope your membership in this organization will be a long, enjoyable, and safe experience. New friends that wish to share their appreciation of the shooting sports are a handshake away.

There are no recorded firearms accidents in the Club's long history. ***Safety is no accident!***

LRPC is a shooting club that promotes marksmanship through safe range practices and the skills and attitude needed to create an environment of constant marksmanship improvement.

OUR primary concern is safety and the desire to ensure everyone leaves this range free of injury.

This is an enjoyable and challenging hobby or sport that requires a high level of concentration, discipline, and physical aptitude. Errors in any of these may result in a disabling and even fatal situation. ***Be aware of yourself and others around you at all times. Know your skill limitations and the limitations of your equipment, firearms, and ammunition. Compromise is unacceptable!***

There is NO stupid question.....the worst question is one that was never asked.....

Ask for clarification at any time during or after the orientation if you are uncertain of the information being presented. You are held responsible for your actions as well as your guest's actions while on Club property.

Lastly, keep an open mind during this orientation and do not assume you know OUR range rules. Many veteran shooters have joined before you with various shooting skill levels. Many have had extensive formal training and regularly compete in various sanctioned matches. Even these experienced shooters have praised LRPC for continuing and improving on the new member orientation program.

Best Wishes and Safety,

LRPC Board of Trustees
